Martin Luther King Scholarships Awarded

Shimer College awarded its first Dr. Martin Luther King, Jr. Scholarships to two third-year students Wednesday at the college's Graduation Convocation.

The first recipients of the newly created scholarships are Loraine A. Hutchins, 21, 18 Hictory Avenue, Takoma Park, Maryland (near Washington, D. C.) and Craig Wylie, 20, of 912 Colrain SW, Wyoming, Michigan (near Grand Rapids).

Miss Hutchins, the daughter of Mr. and Mrs. Thomas J. Hutchins, is finishing her year of study in Shimer's foreign study program at St. Clare's Hall, Oxford, England. She was elected a Shimer Honor Scholar in the fall of 1968.

Wylie is the son of Mr. and Mrs. Bert M. Wylie and has been a Shimer Honor Scholar since the fall of 1967.

This year he was one of the nine students elected to the Shimer College Steering Committee. This is a newly-formed campus governing body composed of students, a member of the faculty and a member of the college administration.

The scholarship winners were selected by a special faculty committee of the private liberal arts college. The recipients were judged on their qualities of constructive leadership, which characterized the life of Dr. King, and their academic standing. The students also had to maintain a record of exemplary social conduct.

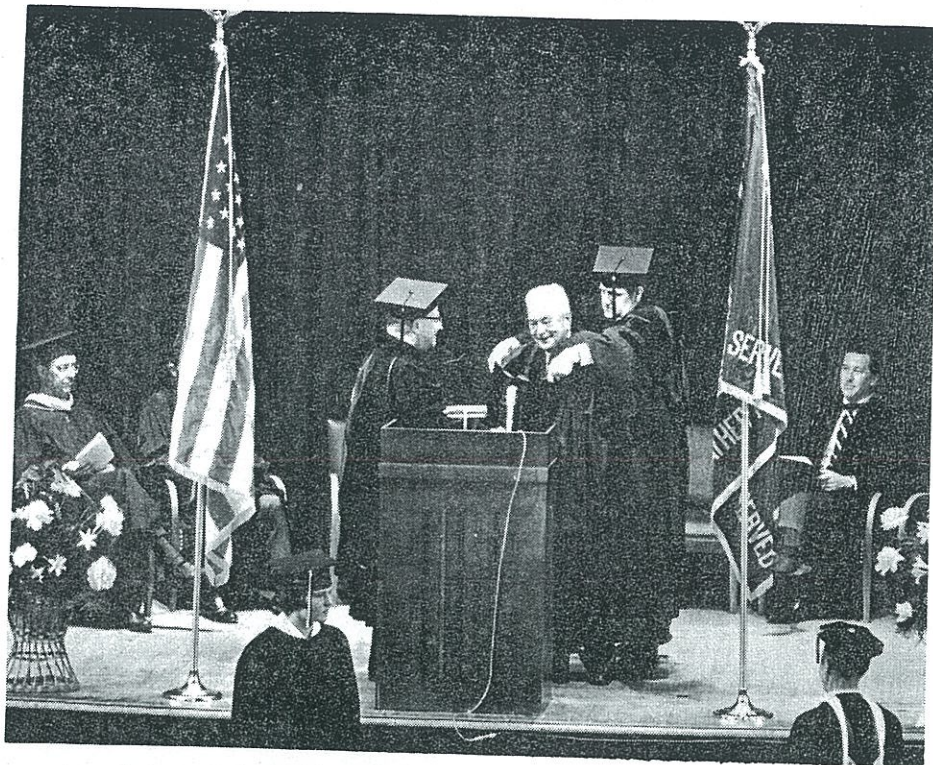

The annual Dr. Martin Luther King Jr. Scholarships consist of up to one-half

the tuition charges and were voted by the Shimer Board of Trustees this year.

Robert Schuler Receives Post-Graduate Danforth Black Studies Fellowship

Mr. Robert Schuler, Shimer College faculty member, has been awarded one of ten Danforth Foundation post-graduate "Black Studies" Fellowships for the academic year, 1969-70, according to an announcement by Shimer president, Milburn P. Akers.

Schuler has been granted a one year leave-of-absence from Shimer to pursue the Foundation's individually designed plan of Afro-American studies at Yale University this fall. As a Danforth Fellow, he will audit courses and seminars at Yale, consult with key faculty members at the University, have free access to library resources, and engage in collo-

quiums for discussion of all problems related to "Black Studies."

The Danforth Foundation program has grown out of a concern that "Black Studies" will be taught before it is defined and that far too few qualified teachers are prepared to focus on the experience of the blacks. This new program is designed to give experienced teachers additional background and enrichment in what has become one of the most pressing curriculum-related problems facing institutions of higher education in the United States today.
